# PROCUREMENT SAVINGS BOOT CAMP

## Boost your bottom line....wisely

During a conventional sourcing event, buyers frequently attempt to cut costs by selecting unfamiliar suppliers offering the lowest per-unit prices.

In contrast, within a Procurement Savings Boot Camp, the team will thoroughly evaluate expenditures, commodities, and supplier options to formulate sourcing strategies that take into account the comprehensive cost of ownership. This approach includes an assessment of:

- Viability
- Quality
- Delivery
- Inventory
- Risk
- Cost

This comprehensive evaluation ensures that savings are achieved while considering various critical factors beyond just the initial price.
